⁴ Eurotunnel consider that climate change adaptation remains on their agenda and is factored where appropriate, but producing a report is not proportionate

⁵ Cardiff Airport will not produce a report as they have dedicated management working towards implementing their 2011 plan, while addressing wider Environmental issues.

⁶ Edinburgh Airport is confident its 2011 adaptation plan adequately assessed climate risks and remains current

⁷ Harwich Haven Authority were not invited to report, as they declined to participate at consultation stage in January 2013

⁸ Peelports considers that reporting on climate change is just one element of wider risk management and business continuity, and separate reporting will not currently add additional value to its risk management reporting

⁹ NATS declined participating in reporting at consultation stage due to the lack of significant changes in their risk assessment undertaken in the first round

¹⁰ Dartmoor NP does not have sufficient resources to produce a progress report, but the issues covered in the first report are unchanged. Dartmoor remains focussed on implementing actions from that report

¹¹ Exmoor NP is not able to produce an individual report at this time, but will continue providing updates to the National Parks climate change working group

99. Peak District National Park Authority	Yes
100. Yorkshire Dales National Park Authority	No ¹²
101. Canal and River Trust	No ¹³

¹² Yorkshire Dales NP has used its first round assessment to inform a new National Park Management Plan for the period 2013-2018, which includes climate change objectives. The Authority does not have the resources to undertake a further assessment in advance of reviewing that Plan in 2018

¹³ Canal and River Trust will participate in reporting if they consider that current adaptation plans need updating
